

David T. Lowenthal Founder's Poster Session Award in Geriatric Care

Submission Guidelines and Attestations

Each year during our annual meeting the Florida Geriatrics Society (FGS) presents the David T. Lowenthal Founder's Poster Session Award in Geriatric Care. Authors may submit abstracts in one of the listed categories (see below) or any other topics pertinent to geriatric care and as approved by the FGS Education Committee.

Acceptance of the abstract is contingent upon registering for, paying the meeting registration fee, and attending the Annual Meeting. In addition to this, you must be a current FGS member and present your poster during your assigned time at the Poster Session to be considered for the Lowenthal Founder's Poster Session Award. Please apply for FGS membership [here](#), if you are not a current member of the Florida Geriatrics Society.

Call for Abstracts

1. All Florida Geriatrics Society members are eligible to compete for the David T. Lowenthal Founder's Poster Session Award in Geriatric Care.

2. Authors may submit abstracts pertaining to original research, case series and case studies from clinical practice, clinical innovation & quality improvement (including models of geriatric care), clinical trials, epidemiology, ethics and qualitative research, geriatrics bioscience, geriatrics education, geriatric medicine in other specialties, interprofessional education, geriatric syndromes and clinical/therapeutic pearls, health services & policy research, neurologic & behavioral science, or any other topics pertinent to geriatric care and as approved by the FGS Education Committee.

2023 Annual Meeting Important Dates and Reminders:

- FGS annual meeting Lowenthal Founder's Award Poster Session will be held during the Saturday, September 23, 2023 session at the **Sheraton- Sand Key Resort, Clearwater Beach**, Florida. Please apply for FGS membership [here](#) prior to submission of your abstract, if you are not a current member of the Florida Geriatrics Society.
- All entries must be submitted on or before end of day **Monday, June 12, 2023**. All abstracts must be submitted online. Hard copy abstract submissions will not be accepted.
- Notification of the FGS Education Committee's decision regarding abstract acceptance will be made on or before **June 30, 2023**. Accepted abstracts will be invited for poster presentation at the FGS 2022 Annual Meeting.
- Notification of accepted entries for oral presentation during a plenary session at the FGS annual meeting will be made on or before **June 30, 2023**.
- Poster session presenters will need to register for the meeting by **Tuesday, August 1, 2023**.
- Authors need to be present for the Poster Presentation Session at the 2023 FGS annual meeting to be considered for the Lowenthal Founder's Poster Session Award.
- Announcement of the David T. Lowenthal Founder's Award in Geriatrics Poster Session winner will take place during the annual meeting.

PRE-SUBMISSION

Your submission of an abstract confirms your agreement AND acceptance of the following information and guidelines.

LIMIT on number of ABSTRACTS: There are no restrictions on the number of abstracts you may submit. If more than two abstracts are accepted from one investigator, one of the co-authors should make any additional presentation.

CHARACTER LIMIT: There is a limit of 4000 characters for the text of your abstract submission. This includes title, authors, institutions, references and abstract body, as well as all spaces.

ABSTRACT SUBMISSION CATEGORIES

Scientific abstract submissions must identify a primary submission category.

- **Case Series & Case Studies**
Scholarship using individual cases or case series to provide insight into best practices in geriatrics.
- **Clinical Innovation & Quality Improvement (including models of geriatric care)**
Development and evaluation of innovative models of geriatric care; research testing and implementing quality measures, and using measures to improve care and outcomes.
- **Clinical Trials**
Research testing interventions using random or non-random control / comparison groups.
- **Epidemiology**
Descriptive studies of health and disease across large populations.
- **Ethics & Qualitative Research**
Research exploring ethical and humanistic aspects of healthcare.
- **Geriatric Bioscience**
Animal or human research examining fundamental biology of aging and / or disease processes.
- **Geriatric Education**
Research and evaluation of innovation in health education.
- **Geriatric Medicine in Other Specialties**
Research on care and outcomes in Emergency Medicine, Surgery, Rehabilitation, or other specialties working with geriatric populations.
- **Geriatric Syndromes and Clinical/therapeutic pearls**
Descriptive research on the mechanisms, natural history or management of major geriatric syndromes. Clinical pearls reflect succinct, clinically relevant information drawn from clinical experience that can benefit patient care, but may not be found in the medical literature.
- **Health Services & Policy Research**
Research on healthcare delivery, policy and payment.
- **Interprofessional Education**
Research and evaluation of innovation in interprofessional education.

- **Neurologic & Behavioral Science**
Research on neurologic or psychiatric conditions affecting older patients.
- **Other**
Any other topics pertinent to geriatric care and as approved by the FGS Education Committee.

Abstract Content And Format

Scientific abstracts report the results of original research and must contain data (either quantitative or qualitative) and report research results.

ABSTRACT BODY:

The abstract should conform to the following organization and contain:

Background:	should describe the context and importance of the study and state the objective(s) of the study.
Methods:	should include a description of the methods used considering study design, setting, population, measures, and analytic procedures.
Results:	should describe the results in sufficient detail to support the conclusions. Tabular or graphic results are acceptable.
Conclusions:	should state the implications of the findings for clinical practice, research, education, or policy.

Scientific abstracts that do not describe research methods and present study results will not be considered for presentation at the annual meeting. Statements such as "data will be presented" or "results will be shown" should not be included in submitted abstracts. Abstracts should include only nonproprietary (generic) names, which should be written in lowercase letters, e.g. acetaminophen. Include any data on the racial/ethnic diversity of your research population in this section.

ATTESTATIONS

Presentation of original research findings is an important component of the Florida Geriatrics Society's Annual Meeting. Abstracts reporting results from original research studies will go through a specific review by the Abstract/Poster Selection Committee. Abstracts that are selected for this purpose will be presented in poster and oral presentation sessions.

By submitting an abstract for consideration, all authors must affirm the following:

I understand that submission of an abstract constitutes a commitment to present if accepted and that failure to present, if not justified, will jeopardize future acceptance of abstracts.

I understand that if accepted, the paper or poster abstract presentation must be made by one of the authors involved in the research and named as an author on the abstract.

I understand that each investigator may submit just one abstract, although I may be a co-author but not primary presenter on a maximum of one additional abstract from an investigator.

I affirm that this abstract does not duplicate other research I have submitted.

I affirm that this research will not be published before the 2023 FGS annual meeting (September 23-24, 2023).

I affirm that this abstract complies with the principles set forth in DHHS Code of Federal Regulations #45 CFR 46 on Protection of Human Subjects.

I affirm that this abstract complies with the guidelines of the American Association for the Advancement for Science in requiring assurances of the responsible use of animals in research (American Association for the Advancement of Science. Resolutions on Use of Animals in Research, Testing, and Education. Adopted by the AAAS Board and Council, February 19, 1990).

I affirm that this abstract complies with the guidelines of the International Committee of Medical Journal Editors regarding publication ethics (International Committee of Medical Journal Editors. Uniform Requirements for Manuscripts Submitted to Biomedical Journals. Ann Intern Med. 1997; 126:36-47). In particular, I affirm that "all persons designated as authors qualify for authorship, and all those who qualify are listed. Each author has participated sufficiently in the work to take public responsibility for appropriate portions of the content. Authorship credit is based only on 1) substantial contributions to conception and design, or acquisition of data, or analysis and interpretation of data; 2) drafting the article or revising it critically for important intellectual content; and 3) final approval of the version to be published. Conditions 1, 2, and 3 are met for all authors".

I affirm that I have disclosed all funding in support of this research at the time of my submission and understand that this information will need to be published as a statement (regarding support of my research) on the poster and in any oral presentation sessions.

I affirm that submitted abstracts include only generic names and that should it be accepted, the poster or oral presentation will also use only generic names when discussing drug therapies.

I affirm the primary/presenting author is a current FGS member and available to present their work during the Lowenthal Award poster session at the 2023 FGS Annual Meeting, in order to be eligible for the Lowenthal Founder's Award.

Encore Presentations

The FGS invites encore presentations that has already been presented at other professional meetings but not yet published.

I affirm that if this abstract is an encore presentation, the research will not have been published in anything other than abstract form in advance of the 2023 FGS Annual Meeting.

Violation of these Guidelines

I am aware that violation of these submission guidelines may result in:

- a retraction withdrawing the abstract and detailing the reasons for its withdrawal
- any industry supporter and myself being prohibited from submitting an abstract for the next FGS Annual Meeting

Copyright Transfer

All authors hereby give the Florida Geriatrics Society permission to publish this abstract in printed form and online. All authors agree to transfer to the Florida Geriatrics Society the copyright and all other rights in the material comprising the abstract if the abstract is accepted. Authors with exceptions that will not allow them to agree to the transfer of the copyright (e.g. U.S. Government employees) should note the reason for not agreeing to the transfer of the copyright.

SUBMISSION

- The abstract submission deadline is **Monday, June 12, 2023 at 11:59 pm Eastern Time.**
- Please apply for FGS membership at www.floridageriatricssociety.org prior to submission of your abstract, if you are not a current member of the Florida Geriatrics Society.
- **To submit your abstract to the Florida Geriatrics Society, you will need to log into your FGS Membership Account Profile (www.floridageriatricssociety.org) and use the Upload feature in your profile screen OR you may upload your submission when you register to participate in the Lowenthal Poster Session Founder's Award competition. Registration is available on our website under the Event Tab or the Lowenthal Award Tab**

If you have any questions, please email our FGS Executive Director at exec@floridageriatricssociety.org
